Autism and Communication Service.

Cygnet Parents - to support the parents who have a child diagnosed with autism. This course is specifically targeting those children aged 5-16 years.

Outline

Barnados Cygnet Parents - to support the parents who have a child diagnosed with autism. This course is specifically targeting those children aged 5-16 years.

Description

The sessions will cover:
- Week 1: Sensory and Communication
- Week 2: Understanding Behaviour
- Week 3: Supporting Behaviour

Outcome

To ensure that parents feel more confident using a range of strategies with their children.

Audience

Parents whose children have a diagnosis of autism. This course is intended for the parents of children aged 5-16 years and places are also available to staff members in a supporting role.

Booking Information

This programme is presented quite informally in suitably sized groups. There will be two trainers presenting and at least one of these will be an advisory teacher from the Autism and Communication Service. A commitment is required that you will be able to attend the 3 sessions.

This course is fully funded to parents and a member of the school staff.

Please apply for this course via your school SENCO or PFSA who will have to complete Cygnet for Parents referral form- a diagnosis of autism is required or attendance with the agreement of your child's paediatrician.
