Dear Parent/Guardian

HP Chromebooks - Year 10

The HP Chromebooks which were issued to your son/daughter at the start of Year 7 are now over three years old, therefore the insurance and the warranty that the school purchased with the devices has now finished.

The school will be able to make minor repairs to the Chromebooks but if this involves replacement parts there will be a charge. You may also wish to investigate insurance through your home policy or similar.

If you wish to replace a Chromebook then there is the option of you purchasing a new device through the school if you wish.

Yours faithfully

Mr M Payne
Business Manager
