You're an hour in to your exam. You're feeling confident, it's going well and you've know all the questions you've been asked so far.

The, you turn over the page ready for the next question. You read it. You panic. You try and read it again. The panic worsens. The problem? You don't understand the question. You know the topic- you remember revising it at the weekend- but you're not sure what the question wants you to do. The worst part? This question is worth 16 marks.

Do you?

Which of these is more likely to happen?

Why?

Does anyone have any strategies to help them when this does happen?

What are they?

Command words are the words and phrases used in exams and other assessment tasks that tell students how they should answer the question. NOTE: **SHOULD** answer the question. NOT **COULD**! If you don't get the command word right, you will be missing out of full marks for that question.

What do I need to do?

Understand what the question is asking you to do.

How many command words are there?

Are they a higher level or lower level skill?

What are key words?

Key words are the words in the question that narrow down your response or make it more specific. They don't tell you what skill to use like command words do, but tell you what knowledge and facts you're going to need.

What do I need to do?

Beforehand, make sure you've learnt the facts!

Question 04

Describe two problems faced by Kaiser Wilhelm II's governments in ruling Germany up to 1914.

[4 marks]

Reflect on your answer.

When practicing, you could always colour code your answer against the command words and key words to make sure you've included everything you need.

One of the problems was the Reichstag (Kaiser Wilhelm II's Government) was the fact that they were left wing. This was a problem as the Kaiser and Chancellor were both right wing meaning they wanted capitalism and the Reichstag wanted equality. Kaiser Wilhelm's desire was "Weltpolitik" meaning he wanted to be a major player in World affairs; this would be a problem for the left wing Reichstag as they would be against this. Having conflict inside a monarchy would highly affect the country as they may become weak and vulnerable.

Another problem faced by the Kaiser and his Government was Trade unions. These were a problem as by 1914 membership had reached 3.3 million. Trade unions were workers who went on strike/ raised the Governments awareness of their upset about wages, working conditions or working hours. This would have caused a problem for the Kaiser as at the time he was aiming for rearmament, meaning without enough workers he could not build enough battle ships/ weaponry to remain a strong monarchy.

Scribble and Simplify

OK, you've done all this, but the questions has just got too many words and you just can't get your head around what it's asking you to do.

What now? Panic? Close the exam paper? Give up? Try to salvage as many marks as possible?

If you're **STILL** unsure of what to do or got a really complex question **SCRIBBLE** out the words you're not sure of and **SIMPLIFY**. Likely you'll still get **SOME** marks.

Focus this part of your answer on the second part of the source, from **line 19 to the end**.

A student said, 'This part of the story, set in the hat shop, shows that the red-haired girl has many advantages in life, and I think Rosabel is right to be angry.'

To what extent do you agree?

In your response, you could:

- consider your own impressions of the red-haired girl
- evaluate how the writer conveys Rosabel's reactions to the red-haired girl
- support your response with references to the text.

Using practice exam papers or revision guides, write out an exam question, making sure that you BUGS it.

Have a go at answering the question.

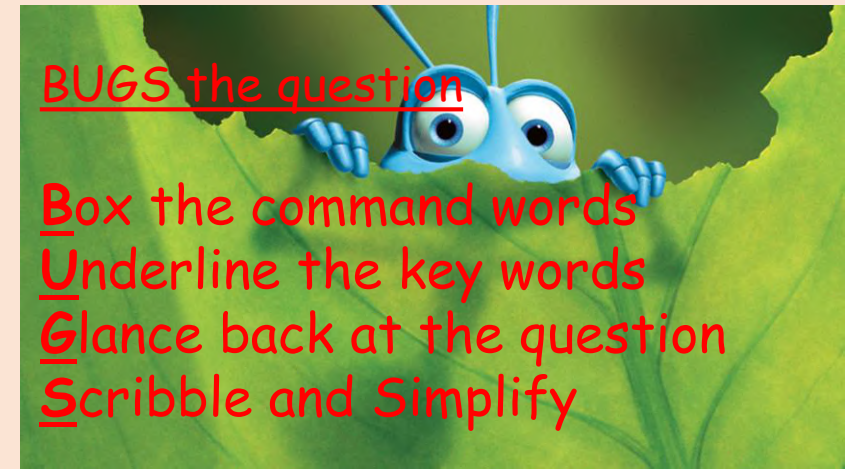

Use highlighters to colour code your answer against the command word(s) and the key word(s).

Now reflect

How many marks is the question worth?

What type of skill is involved in the command word?

Have I got evidence of both colours?

Over to you...

You are an examiner writing an exam paper for your particular subject area. Choose a subject you have studied and write one or two questions that could be included on the exam paper.

You need to consider:

What command word are you going to use?

How many marks is the question worth?

What are the key words that narrows down the focus for the student?

Write a short 'mark scheme'- a few bullet points will do- of what you'd expect to see in an answer.

Get your partner to answer your questions.

Have they answered it appropriately according to you command and key words?
